

# Agenda for Jan.31, 2019

## Status:

- Have finished all use case diagrams and finalized all use text descriptions
- Have our interface mock-ups drawn out in a more attractive representation
- Have decided on a way to represent our fireworks for the end of game screen and have pictures to include in our requirement doc
- Everyone was given parts to do and are finished or nearly finished
- We are now putting the final pieces together and will give a final edit on Friday's meeting
- Each person's status:
  - Spencer: Use case diagrams are done. Pictures and explanations are done but have to be posted to git
  - George: Use case diagrams and use text descriptions are finished and posted
  - Jim: Still editing his written parts. First drafts finished and will be posted to git soon
  - Brendon: still have one section to be finished and to be posted to git on Friday
  - Amanda: Interface drawing nearly finish and need to be posted to git
  - Zeshan: One section to finish and final editing

## Decision:

- None

## Solve:

- None

## Information:

- None

## Things to Ask TA

- Should we do sound? How beneficial is it? How much will it affect our grade?
